

#eInvoicing

Dear all,

Last month, we have together achieved our ultimate legal milestone for eInvoicing. This mainly results from your important work as key eInvoicing stakeholders.

We would like to continue our fruitful cooperation by co-creating future policy discussions and designing the future of eInvoicing together with you.

Consultation

We would like to invite you to an [online consultation](#) about the future of eInvoicing. This is a unique opportunity for you to get involved in very interesting exchanges about, for example; [eInvoicing and the European standard in B2B and B2C](#) / [eInvoicing and real-time tax reporting](#) / [interoperability and implementation questions](#)!

Please share your comments, feedback, ideas, future projects on policy, economic and technical topics related to eInvoicing via the CEF User Community.

Online session

The consultation will help us build the core content of an open online session on 9 June 2020.

[CLICK HERE TO REGISTER !](#)

This event will be the perfect chance to exchange ideas on the future of eInvoicing *live*. Our CEF eInvoicing experts and officers from GROW will reply to questions and offer suggestions.

We look forward to cooperating on this important initiative with you!

Best wishes!
